BACK TO SCHOOL WITH KUMON

As summer vacation ends, parents are busy getting their children ready for the new school year. New clothing, haircuts, notebooks, binders, pencils, pens and erasers are all needed. However, the most important of school supplies for your child is Kumon. In this back-to-school season when we buckle down and start thinking seriously about academics, it is very important to continue Kumon study. Continuing Kumon study during the school year promotes an element of year-round stability in the child’s academic life. Remaining committed to Kumon is a tangible way in which parents can demonstrate the importance of maintaining high academic standards. Learning continues year-round. Continued Kumon study during the school year will result in even more substantial academic gains as well as other positive benefits.

Students who have studied Kumon throughout the summer months return to school with a big advantage. It is easier for Kumon students to adjust to the renewed school schedule and to get used to school routines such as homework. Kumon students also have an advantage on tests because of the training they continue to receive in Kumon. Overall school performance can be enhanced by remaining active in Kumon. Students certainly need the time management and study skills Kumon builds during the school year. The new school year is a chance for students to apply Kumon-acquired skills developed over the summer. The most important thing to keep in mind is continuity. The individualized Kumon system is flexible. School activities can be accommodated by adjusting the amount of the daily work.

One of the benefits of Kumon study is improved performance in school. When parents supply their children with Kumon, they ensure their continued academic development. Keeping Kumon as a part of your child’s year-round daily routine can help to make this school year the best one yet for your child! We wish all of our students the best for the new school year. We are grateful to parents who make the wise choice of remaining involved in Kumon during the school year. We hope our students will do their best during the school year, proving to everyone that Kumon students are the best!

GOOD LUCK WITH THE NEW SCHOOL YEAR!
